EDUCATION

Okten School

Javascript Fullstack Developer
2020 - 2021

UMCS Lublin

Bachelor of Informatic Mathematic
and Physic
2019 - Future

SKILLS

- NestJS
- ReactJS
- Typescript
- Leadership
- Redux Toolkit
- NextJS
- GraphQL
- Postgresql

LANGUAGE

- English - B1
- Polish - C1
- Ukrainian - native
- Russian - C1

ABOUT ME

I am a Junior JavaScript Developer with 3 years of commercial experience, during which I actively worked on various projects, including startups and web services, using ReactJS, NextJS, and NestJS. I have practical experience with PostgreSQL and AWS S3, as well as integrating payment systems and authorization services. I am distinguished by my ability to learn quickly, my skill in solving complex problems, and my effectiveness in communicating with both the team and clients.

WORK EXPERIENCE

Expletech

2021 - FUTURE

Junior Javascript Developer

- Internship experience over the first 6 months.
- Project #1 "Roobi" - A startup, an analog of Glovo in the United Arab Emirates. Tech stack: ReactJS, NestJS, PostgreSQL. I have developed a referral system, bonus payments, Stripe payments, authorization, manipulation of products and lists, as well built web page design.
- Project #2 "Movieland" - A cinema website. Tech stack: NextJS, NestJS, PostgreSQL. I have Integrated AWS S3, connected and integrated a Ukrainian ticket purchase service vkino, and stored a movie list. Developed a cinema session schedule generator using ChatGPT, authorization, and an admin panel for editing the movie list, posters, descriptions, and filtering lists.
- Project #3 - "Remembering Time," a service for creating memorial pages for the deceased (their photos, videos, audio, etc.). Tech stack: ReactJS, NestJS, PostgreSQL. Integrated AWS S3, Stripe payments. Developed a referral system, a system for creating/modifying a page and uploading files, authorization, and an admin panel with statistics.

Additionally, I led one of the projects, devised the development strategy, allocated responsibilities among employees, assigned tasks, devised solutions, and communicated with clients.

I have worked on many other projects, a complete list of which can be found in my portfolio.
